

## Directions from the Trenton Area

Take I95/295 from route 1 to I 195 as if to go to Great Adventure or the shore points (EAST). Take exit 11 (Imaystown) bear left and turn left over the highway to the next stop sign. Go straight, this is actually a jog to the left crossing state route 524. Continuing straight ( on Imalystown-Hightstown Rd. ) you will go over a one lane bridge and up a rise to and intersection (stop sign). This intersection (bait shop straight ahead), Herbert Rd and Eastbranch Rd, turn right (on Eastbranch) passing the horse farm / stable on your left and continue always bearing left till you come to a stop sign (Clarksburg Robbinsville Rd) with a large white house (state ranger station) in front of you. Turn left then immediately right on to a dirt road along a row of pines. The first opening in the pines to the left is the entrance to the flying field parking area. This may seem out of the way but the club has been flying here over 30 years. The location is almost against the lake in the Assumpink Wildlife Management Area. I am attaching a clipped and marked map.
